### Sri Lanka Customs Service: National Workshop on Customs Valuation

**26-30 October 2015: Colombo, Sri Lanka**

Sri Lanka Customs (SLC) conducted a national expert workshop to develop a model training course with an accompanying set of training materials. The new model training course will support SLC experts in delivering effective and sustainable in-house training to improve Customs valuation control in Sri Lanka, ideally through PCA and risk management. Main Workshop outcomes included identification of areas for potential enhancement and/or improvement in SLC capacity for proper Customs Valuation control, and agreement on the outline for a model training course and training materials to be used by SLC valuation trainers.

### **Historic Opportunity to Link South and Southeast Asia: ADB Brief** **7 October 2015: Manila, Philippines**

Regional integration between South and Southeast Asia remains relatively limited, hindered by various problems, including bottlenecks in transport infrastructure. Enhancements in road, railways, and port infrastructure, as well as new road and rail links between Bangladesh, India, Myanmar, and Thailand will lower unit transport costs, reduce shipping times, and increase the quantity of goods, all of which will help increase trade.
