National Training on Trade and Transport Facilitation Monitoring Mechanism **15-17 April 2014: Dhulikhel, Nepal**

The Trade and Transport Facilitation Monitoring Mechanism (TTFMM) National Training Workshop for Nepal provided detailed training in the integrated methodologies of (i) business process analysis (BPA), (ii) time release study, and (iii) time-cost-distance survey approach. The objective was to equip participants with the required knowledge and practical skills to establish baseline data for monitoring trade and transport facilitation in Nepal; undertake a national TTFMM study; and thereafter identify necessary measures to develop more efficient and transparent trade.

National Training on Trade and Transport Facilitation Monitoring Mechanism **28-29 April 2014: Dhaka, Bangladesh**

Technical experts from the United Nations Economic and Social Commission for Asia and the Pacific (UNESCAP) introduced the Trade and Transport Facilitation Monitoring Mechanism (TTFMM) as a mechanism to monitor trade processes in support of policy reform and implementation. To better understand the trade processes along specific corridors, including scoping and planning the national study, the TTFMM workshop for Bangladesh selected certain products and recommended five corridors.

Regional Cooperation in a Highly Interconnected World

22 April 2014: Manila, Philippines

The Asian Economic Integration Monitor (AEIM), a semiannual review of regional economic cooperation and integration in Asia covers regional economic updates, intraregional trade, financial integration and investment, and the importance of disaster risk financing instruments. It suggests that Asia needs stronger cooperation to counter geopolitical risks with regional trade and financial integration increasing over the past decade.

SASEC Portfolio Breaks \$5 Billion

10 April 2014: Manila, Philippines

Since approval of the first project in 2001, \$5.36 billion has been invested under SASEC in transport, energy, and trade facilitation projects. Overall, 30 SASEC projects are helping the member countries strengthen regional connectivity infrastructure, promote economic growth, and foster regional cooperation. A further \$55 million has supported 54 technical assistance projects.

Launch of Asian Development Outlook 2014

5 April 2013: Hong Kong, China

The Asian Development Outlook (ADO), ADB's flagship economic publication provides comprehensive macroeconomic analysis in Asia, including growth projections by country and region. ADO 2014 forecasts that developing Asia will grow 6.2% in 2014 and 6.4% in 2015. South Asia remains one of the slowest growing subregions—although growth is forecast to improve by 5.3% in 2014 and 5.8% in 2015.

SASEC Regional Transmission Master Plan

7 February 2014: Manila, Philippines

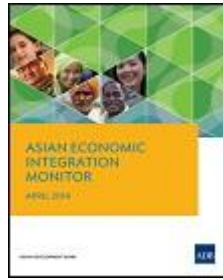

The Asian Development Bank has approved technical assistance of \$500,000 for SASEC member countries to develop a comprehensive long-term regional transmission master plan for the region to more effectively coordinate power generation and transmission. The project aims to improve the planning and coordination capacity of SASEC countries to foster cross-border power trading.
